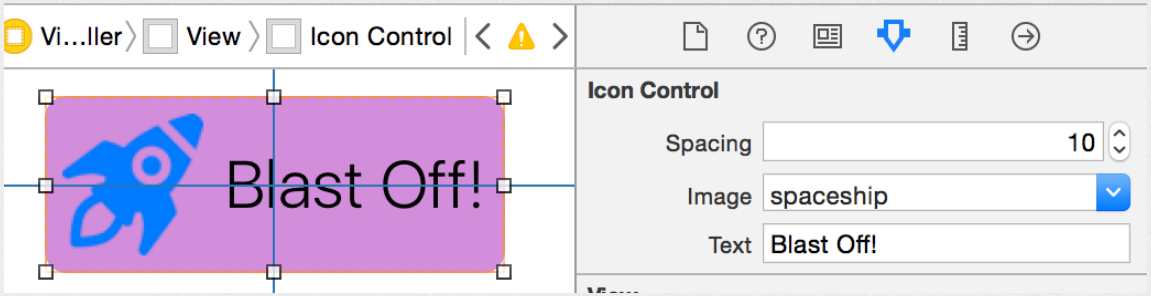
Introducing

# Custom Controls

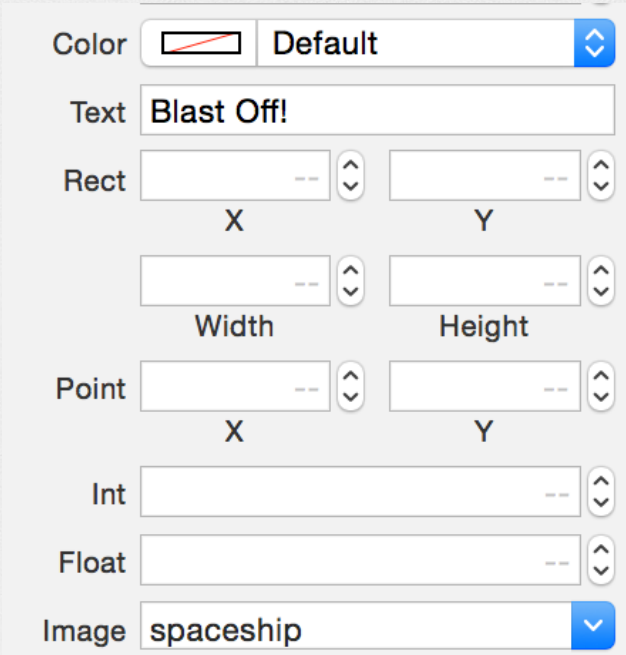
## Integration with Interface Builder

raywenderlich.com

# IconControl



```
@IBDesignable
class IconControl : UIView {
  @IBInspectable
  var text: String
  ...
}
```



# Prepare for Interface Builder

```
extension NSObject {
  ...
  @available(iOS 8.0, *)
  public func prepareForInterfaceBuilder()
}
```

# It's Challenge Time!

```
extension UIView {
  ...
  @available(iOS 7.0, *)
  public var tintColor: UIColor!

  @available(iOS 7.0, *)
  public var tintAdjustmentMode: UIViewTintAdjustmentMode

  @available(iOS 7.0, *)
  public func tintColorDidChange()
}
```
